G. F. Taylor.

# **VICTORIAN 70**

**official year of 1969 - 70**

**Victoria Composite High School**

**Edmonton, Alberta, Canada.**

Let no one think that being a leader is easy. Often it is a lonely and difficult business. Life always gets harder toward the summit, and cold increases, the responsibility increases and there is never any guarantee of success. But the rewards are enormous for those who will strike for the summit, who will take the risks; dare the unknown.

# Tribute Page

Three people deserve this tribute for their services to students and teachers at Victoria Composite. A paragraph is insufficient to sum up their individual contributions ---- each in his or her own way, made our school a better place in which to learn and teach. Thank you.

## MRS. BESSIE LAMBERT

Integrity, dedication, vitality, modesty, courage, compassion; the Professional Teacher, Mrs. Lambert.

She worked tirelessly -- in the classroom with her students; in staff meetings with her peers; in and out of school with all of us who needed her.

More than a pedagogue, she is a gracious lady. Mrs. Lambert has been, and is, an inspiration to us all. We miss you Mrs. Lambert.

## MISS JEAN McLAGGEN

Anyone who has played a part in our school's affairs either as a student or a teacher must have been impressed by Miss Jeanie McLaggen's work. Few academic students have not at one time or another passed through her hands. She will be long remembered for her vigorous speeches and for her Latin and French classes. Miss McLaggen will be forever missed at Vic and our sincere wishes accompany her into retirement.

## MR. FRED DANIELS

Mr. Daniels has been our Business Manager at Vic. Comp. since August of 1966. He scrupulously managed our affairs -- always defending the students position ahead of administrative expedience. After leaving the army with the rank of Major-second in command of the Edmonton Service Battalion he became Administrative Assistant to the Dean of Education at the U. of A. Mr. Daniels leaves Vic in September to live in Hampshire England. Good luck, Mr. Daniels, and a fond good-bye.

Go placidly amid the noise & haste, & remember what peace there may be in silence. As far as possible without surrender be on good terms with all persons. Speak your truth quietly & clearly; and listen to others, even the dull & ignorant; they too have their story. Avoid loud & aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain & bitter; for always there will be greater & lesser persons than yourself. Enjoy your achievements as well as your plans. Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high deals; and everywhere life is full of heroism. Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment it is perennial as the grass. Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue & loneliness. Beyond a wholesome discipline, be gentle with yourself. You are a child of the universe, no less than the trees & the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors & aspirations, in the noisy confusion of life keep peace with your soul. With all its sham, drudgery & broken dreams, it is still a beautiful world. Be careful. Strive to be happy.

## Principal's Message

J. T. KARPOFF

Only a few short months ago we were at the threshold of a new school year, one that held many promises. To some of you these promises have been fulfilled and you are ready to embark on a wider field of activity—either to higher learning or to the world of business. To others, this year has been one of promises unfilled and you may tend to blame us, the older generation, for your frustrations. I cannot give answers to all your problems but I have some advice, based on my knowledge and years of association with your generation that I would like to give you.

You have the opportunity to develop into the best generation ever to be born into this world. Generations before you have worked to give you the world that can provide this opportunity. My generation has provided money to give you the fine schools, the good teaching, and a comfortable way of life. In doing this we may have lost sight of some of the ideals we all seek and perhaps we have placed too much value on material things. The miracle is that we have accomplished so much, not that we have made mistakes.

We are not saying that the world is perfect, but we are saying that it is the best we have been able to evolve. Now it is your turn; you may, on the basis of our experiences, be able to evolve a much better one.

However, you must first learn that you can only achieve the worthwhile through cooperation, mutual selfrespect, and responsibility. You must show us that you can run your own affairs smoothly. You must show us that you can take the blame for your own failures. Then, we would be perfectly willing to see you take over this world and run it. But you must first earn that right.

## President's Message

I think the purpose of this message is to comment on the past school year and offer some sort of possible definition for it.

So, after thinking about it for a long time I finally came to the conclusion that the best way to define this year was one of transition and uncertainty. That is, the year was one in which a lot of changes were in process and nobody could really say what the end product of these changes was going to be. And this in turn, created the uncertainty and confusion of the year which I'm sure was evident to everyone. For instance, there was the issue of "open campus" which seemed to be the prevalent topic of conversation throughout the whole school. Everybody was wondering if and when we were going to have such a system. And although we still really haven't, we have moved towards that system and likely will have it in the near future.

And, this mood of transition and uncertainty was not just present in the school. It was throughout the whole world, on a larger and greater scale, although. But hopefully, these issues will be solved in the near future for just one reason--they have to. And that is going to be the job of the students of today, whether we like it or not.

How are we going to do this? Well, the best answer I can give to that question is a line from a song I heard a while ago:--

"COME ON, LET'S WORK TOGETHER."

# Where Do You Stand?

Young People today are constantly having to make decisions on where they stand in their society and their world. There are the questions of drugs, war, discrimination, patriotism, careers, and family life.

To form opinions and to take definite stands teens need facts, information and background material. This material appears daily in The Edmonton Journal.

A wide variety of features appear regularly in The Journal so that you will be kept fully informed. Especially for Teens is the Teen Page every Friday with school news and articles by high school students. There's also Teen Dateline, pertinent questions from teens answered by Ele and Walt Dulaney, which appears daily in The Journal.
